# BOOK+APP

[www.BOOKplusAPP.com](http://www.BOOKplusAPP.com)

# BOOK+APP™ ENRICHING THE LIVES OF CHILDREN, TEACHERS, AND THEIR COMMUNITIES WITH EXCITING NEW AR/VR EDUCATION TOOLS AND TITLES.

Together with teachers, publishers, and technology partners, we work tirelessly to create the world's most innovative and exciting AR/VR educational titles.

## BOOK+APP™ – A NEW AND EXCITING EDUCATIONAL PUBLISHING PLATFORM

**Book+APP™** is our proprietary Augmented Reality publishing platform for books of all types. A totally new and powerful content creation engine that allows publishers to easily add App excitement, 3D animation and value to their existing content. We help publishers embed AR into their existing titles, or guide them through the creation of entirely new projects from scratch.

**Our current catalog contains 150 AR children's book titles with over 600 Apps in 14 different languages available internationally in the Apple, Google, and Samsung App Stores.**

Our goal is simple. Develop exciting and groundbreaking multi-lingual AR/VR learning tools for children everywhere. Provide them with unparalleled growth opportunities that will change their lives forever.

*Victoria Han Farago*

Victoria Han Farago  
CEO / Creative Director  
New York / Seoul

Please join me in bringing the excitement and magic back to learning and journalism in 2017.

“She is putting the magic back into reading by bringing content to life with Augmented Reality.”  
– China Digital

*“In today's busy world, with all the distractions competing for our children's attention, books like the LuLuLaLa series, with their numerous interactive features, will keep curious kids challenged and interested – and better prepared to succeed in a technology-driven society.”*

– Jim Barnes, Awards Director, IndependentPublisher.com

*“We are happy to award the Tagme3D book apps from Victoria Productions. Our panel of judges felt these wonderful apps merited a place on our list of the best in family-friendly products that parents and educators can feel confident in using.”*

– Dawn Matheson, Executive Director, Mom's Choice Awards

## 01 Applying AR Technology to Book Publishing

### Animation → AR book

Victoria Productions can publish AR books based on any type of animated series. By scanning pages in the book, children can interact with the 3D characters from each episode using a tablet or smartphone.

### Picture Book → AR book

Ordinary pages come alive with 2D flash animation, and fun read alongs. When a smartphone or tablet with a camera is held over any of the pages, a narrator begins reading the stories aloud in sync with beautiful 2D animations.

### Animation CD, Toy → AR book

The technology is not just limited to paper. A wide range of characters, products, CD's, and photos can be easily transformed into an augmented reality BOOKplusAPP.

## 02 App development

We develop and design mobile applications for clients using their pre-existing content. We are capable of developing a wide range of applications on various platforms, including iPhone, iPad, and Android devices.

## 03 3D/2D animation

We create and develop a variety of contents using 3D animation, motion graphics, and 2D designs. We help clients develop story ideas that will suit their needs. Our only limit is your imagination.

TOTAL 4 BOOKS

When you scan any tag the associated 3D object magically pops-up, teaching English Phonics. The TagMe mobile Apps support 14 different languages.

Let's Speak Multiple Languages!

AWARD

Moonbeam Awards Gold for Reading Skills Literacy

Mom's Choice Awards Honoring Excellence

"The TagMe3D books are a futuristic step toward helping families solve some of the reading skill problems children face today. By making the learning process challenging and fun, these books and apps bring a whole new dimension to literacy improvement."

- Jim Barnes, Director, Moonbeam Children's Book Awards

Scan 400 Words from 15 categories

'Tagme3D' consists of 4 books and 400 vocabulary words. It is composed of material covering basic spelling and phonics that should be learned before starting kindergarten. Using the latest AR technology that utilizes both physical book and mobile application, it is the leading educational book for learning phonics. When you scan the picture in the book with your smart phone or tablet the 3D item of that word appears spread out right in front of you.

Use your device with our app to turn pictures into 3D objects with 360° views!

Let's scan this two ways!

MULTIPLE PLAY FOR PAPER

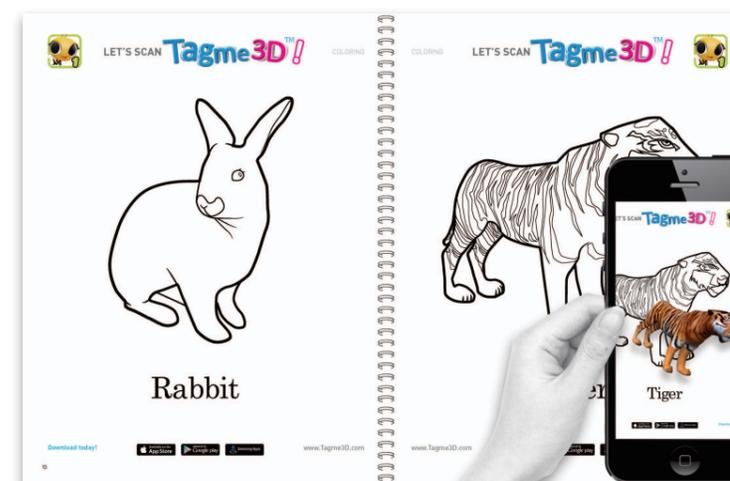

Scanning in multiple mode will allow you to see and play with many cute 3D objects at once. Selecting one will teach you its spelling.

SINGLE PLAY FOR STICKER

Stickers can be removed and attached to real world objects. Then, scan the sticker to display a 3D version of that object to play with and learn its spelling.

Coloring pages!

COLORING PAGE

Color in the outlined shapes any way you like. Our augmented reality technology will magically bring your drawing to life in stunning 3d. Viewing objects in 360 degrees helps children learn their shapes, phonics and dramatically improves learning. The coloring book is designed to promote creativity, improved cognition, and concentration in children.

CHECK!

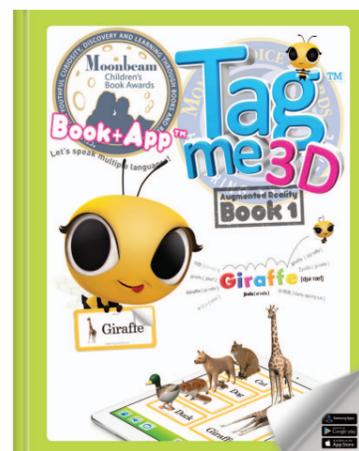

**INSTRUCTIONS - Tagme3D Sticker Books**

- 1 Scan Tags**  
Tap on the "Scan Tag" button and choose one or multiple tags.
- 2 Tap the Object**  
Hold device against tag(s) keeping within the designated borders.
- 3 Learn the Word**  
Tap on the 3D object as it appears on the screen for spelling, pronunciation, and IPA.
- 4 Record Your Voice**  
To record your voice tap on the microphone icon located below the IPA.
- 5 Color the Object**  
Using all colors available, make full use of your fancy imagination and share your creation with friends by sharing function.

## AWARD

Moonbeam Awards Gold for Reading Skills Literacy

Mom's Choice Awards Honoring Excellence

"We are happy to award the LuLu&LaLa series of apps and 3D books from Victoria Productions. Our panel of judges felt these wonderful items merited a place on our list of the best in family-friendly products that parents and educators can feel confident in using."

- Dawn Matheson, Executive Director, Mom's Choice Awards

'LuLuLaLa' is perfect for any young child. Its' beautiful and entertaining 3D animations magically appear right on top of the books pages, making it easy for children to learn and understand new words and ideas. The app also allows parents to record their own voices, giving their child the ability to have storytime anytime they choose.

### LuLuLaLa Enhances Learning 🍪

1. Distracted children will learn while increasing their concentration skills by using the smart device to scan each page and watching the embedded 3D animation.
2. Demonstrates concepts like step-by-step preparation, sharing, friendship, appliance instructions, cleaning, etc. that prepare children for associated tasks in their every day world.
3. Research shows when parents read, children understand better, so we made it super easy to record your own narration.

## ★ INSTRUCTIONS

### 1 Scan Book Cover and Play with LuLu&LaLa

Launch the app and place the camera over book cover. Watch 3D LuLu&LaLa characters spring to life through augmented reality. Control their movements, and make them dance with simple and intuitive controls.

### 2 Camera Scan

Use your mobile device to scan each page of the interactive storybook and watch in amazement as LuLu and LaLa's animated tale immediately comes to life on your screen.

### 3 My Story

Parents can personalize the book for their children by using the custom voice-recording feature. Children will love feeling like they are a part of their favorite story

### 4 Coloring

Color the pages on your mobile device and share your creations with friends through social networks.

AR Spookiz Characters

**Zizi**  
Zizi is a happy-go-lucky girl, who has a crush on Cula. She doesn't wash herself often and does not realize that others do not like being around her because of her stinky smell. Like other zombies, she is very obsessive, persistent, and can be very demanding. She is not sociable and hates making decisions.

**Frankie**  
Frankie is a big blue food-loving monster. He is slightly clumsy, but his kind heart and mighty strength make him popular among his school friends. He is carefree, easy-going and loves food, but when someone takes it away from him, he can become a real monster. His clumsiness puts him in danger at times, but his lucky four-leaf clover always saves him.

**Cula**  
Cula is the troublemaker of Spookiz. He is a descendent of the royal Dracula family. He may seem cold-blooded and evil, but he actually wants to get close to others and become friends. The straw he carries around is for drinking and shooting spitballs. He also is a total neat freak and does not like being around Zizi who lives in a dump. His body does not reflect in mirrors, and can defy gravity.

**Kebi**  
Kebi is energetic, unpredictable, silly, and carefree. He is always running around making trouble, or getting others into trouble. He often offends others with his actions, but he just wants a little attention. He is the complete opposite of his rival, Cula, and they often clash. Kebi is not a very thoughtful character but is very kind hearted, and has a crush on Zizi.

**Reaper Sam**  
Grim Reaper, Sam, is the teacher of our Spookiz characters. He seems very mysterious and serious. He often becomes tangled up in the Spookiz' troubles. He may seem like a soul-less, cold blooded teacher, but he loves his students and looks after them constantly.

**KangKong**  
Our happy little soul, Jiang-shi. Always getting in trouble with pal Cula. The amulet on his hat can turn him into whatever is drawn onto it. He is a Kung-fu master and a hard working achiever. He is very self-conscious about his height and being bald. Collecting boxes is his hobby.

# AR ZOMBIE DUMB

TOTAL 6 BOOKS

Experience the ZombieDumb Friends in amazing Augmented Reality!

Scan any page and instantly, magical 3D animations begin to play.

'ZombieDumb' is a comedy animation series about a group of hysterically funny zombies who are the last survivors of the Zombie Apocalypse. 'AR ZombieDumb' invites children to explore ZombieVille using their mobile devices. Parents can personalize the book for their children by using the custom voice-recording feature and make it even more fun.

### AR ZombieDumb Synopsis

A zombifying virus has spread through the human world and now, only the zombies are left. To survive, the zombies have migrated to the sunless underground world. When the moon rises, mischievous zombie kids secretly gather on human-less Moon Street. They are zombies, but not like the zombies you know. They are really really dumb! One day, the zombie kids discover a human girl 'Hana' and that's when the real adventure begins! Despite their differences, they build and share the strongest of friendships. Their way of solving conflicts may be clumsy, but the result is always a happy and unexpected ending!

Parents can personalize the book for their children by using the custom voice-recording feature. Children will love feeling like they are a part of their favorite story

## 🔍 Book Details

### • Camera page

Use your mobile device to scan each page of the interactive storybook and watch in amazement as the ZombieDumb animated tale instantly springs to life on your screen.

### • Coloring page

Bring your own color to the world of ZombieDumb by painting and drawing right from within the app. Coloring is an excellent way to help kids develop creativity, color recognition, and focus.

**AR ZombieDumb Characters**

**Hana**  
Hana is the sole human survivor on adult-less Moon Street. One day, she encounters the ZombieDumbs while playing alone in a toy store. There are times when she feels lonely, but she is a brave girl with overflowing energy and passion. She overpowers the ZombieDumbs that try to scare her away with her powerful character. Hana instinctively knows that the ZombieDumbs are “very different” from her but that does not bother her at all because, although they are different, they are her friends.

**Zombill**  
Zombill is a self-centered zombie who occasionally plays guitar and dreams of becoming a rockstar. He always wants to get attention so he exaggerates his behaviors which often looks silly to others. Zombill thinks he is smarter than other zombies but in fact, there’s not much of a difference. He often makes wrong decisions which lead to troublesome situations but, strangely enough, they always end well.

**Zomkong**  
Zomkong is often fooled by his friends because he is not the smartest zombie in ZombieVille. He is, however, the strongest one of his friends. He has a very delicate side. He wears striped pajamas and carries his little doll wherever he goes. Normally, Zomkong is very docile and kind, but when he gets angry, he can explode with a wild fury. While he has a fondness for cute petite objects, his own enormous size and power can sometimes be too much for him to manage.

**Zomgirl**  
Zomgirl is the only female zombie of the Zombiedumb friends. She is a snob who always wants to know whether she looks pretty or not and is desperate for compliments. Because of her love of fashion, she spends all of her time dressing herself with all sorts of things she discovers around her. She has a big crush on Zombill but sadly, Zomjack is the only one showing interest in her. She carries around a hand mirror all the time that has Madonna’s picture in place of the mirror.

**Zomjack**  
Zomjack is devilish and nasty little zombie. Spoiling his friends’ dreams is always Zomjack’s top priority. He likes to bully the friends who do not like him. He hates his rival in love, Zombill, and is always looking for a way to trip him up. A mad inventor, Zomjack is always creating crazy new devices to attack his friends but, somehow, those inventions always seem to end up backfiring.

**Zompet**  
Zompet is Zomjack’s pet bat who desperately wants his master to like him. Unfortunately, Zompet always seems to wind up spoiling master Zomjack’s plans. Zompet’s dream is to be a superhero like Batman, but he is just a silly little zombie bat who can’t seem to learn how to fly.

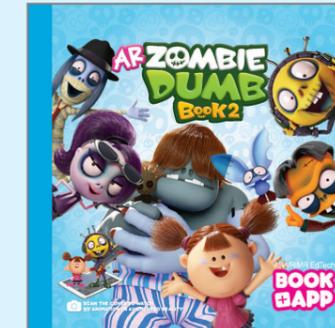

**Zomson**  
Zomson loves dancing and has devoted his life to it. However, his decaying zombie body won’t allow him to dance any longer than 3 seconds. His body parts always seem to fall off whenever he’s copying Michael Jackson’s dance moves. Zomson is wrapped in bandages from head to toe making it very difficult to dance well.

# AR TOTO

TOTAL 40 BOOKS

Scan any page, and instantly, magical 2D animations begin to play.

'AR TOTO' stories have been carefully crafted to be fun for both parents and children. Each fairy tale-like story details a fun and exciting adventure that also serves to cultivate a child's logical and critical thinking abilities. Each page of the 'AR TOTO' book series springs to life with 2D animation when viewed with a mobile device. The adorable characters dance, sing and respond to your child's every touch.

## Book Details

### • Book page

Use your mobile device to scan each page of the interactive storybook and watch in amazement as TOTO's animated tale immediately comes to life on your screen.

### • Coloring page

Bring your own color to the world of Spookiz by painting and drawing the pages. Coloring is an excellent way to help kids develop creativity, color recognition and focusing.

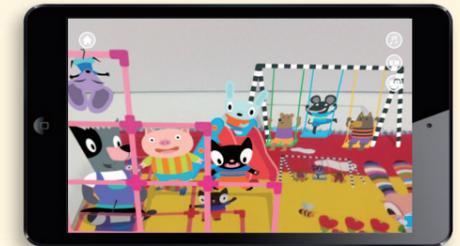

## ★ INSTRUCTIONS

### 1 Start ARTOTO App Series

Click the 'Start' button and get ready to experience AR TOTO.

### 2 ARcamera

Every page can be viewed in 2D animation. Use your mobile device to scan any page of the interactive storybook and watch in amazement as the ARTOTO animated tale instantly springs to life on your screen.

### 3 Voice Recording

Parents can personalize the book for their children by using the custom voice-recording feature. Children will love feeling like they are a part of their favorite story.

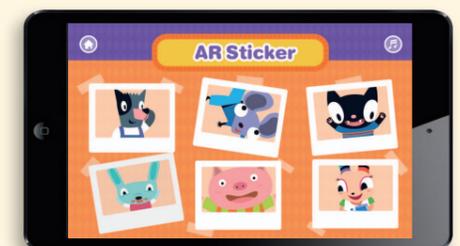

### 4 VRcamera mode

Immerse yourself in the story even more by scanning a particular page and watching TOTO's animation in VR mode. Enable/disable double vision or switch back to AR mode with buttons!

### 5 Coloring Pages

Color the pages on your mobile device and share your creations with friends on social networks.

### 6 AR Sticker

Add TOTO Stickers to your selfies. Place stickers directly on live photos of your face.

Available on the App Store | ANDROID APP ON Google play | Samsung Apps

We have partnered with McGraw-Hill Education which is an American learning science company and one of the "big three" educational publishers. The app is based on well-known celebrity Speech and Accents Specialist Susan Cameron's book, "Perfecting Your English Pronunciation".

- ① Learn English pronunciation in a fun way with friendly animated characters.
- ② Practice difficult English sounds with 3D animations. Carefully see the placement of your tongue, lips, and shape of your mouth when you pronounce certain sentences and compare what you see as see-through 3D animations saying the same thing.
- ③ Download the lessons individually or together and reduce your foreign accent more effectively.
